PORTABLE STRUCTURES

This intake checklist identifies minimum application elements necessary for the City of Bothell to accept the application. Should any of the following minimum items not be provided, the application will not be accepted at the counter. Acceptance of an application deems the application complete.

Applicant: Insert the Plan Sheet Number, and check each box under the Applicant heading on this checklist to confirm items are included in your submittal. A Permit Technician will check off each box under Staff when the item is confirmed to be included in the submittal package. If you think an item is not applicable to your project, you must contact the appropriate department prior to your intake appointment to have the item(s) initialed as not required.

Six (6) complete plan sets are required, and Seven (7) site plans.

If subject to SEPA review, see SEPA intake checklist for additional requirements.

Submittal plan sets, when less than 15 sheets, shall be folded. Plan sets over 15 sheets may be submitted rolled. Submittal fees are due at intake.

Development Services permit application requirements per BMC 11.06.002

An application shall consist of all materials required by the applicable development regulations for the specific permit(s) sought, and shall include the following general information (one of each item required):

Applicant

☐ A completed & signed Permit Application form .................................................................

☐ A property and/or legal description of the site for all applications, as required by the applicable development regulations

☐ The applicable fee ............................................................................................................

☐ Development Review Billing form D ................................................................................

☐ Evidence of adequate water and sewer availability (Water and Sewer Certificate of availability). If the City of Bothell is your provider, submit an application for Water and Sewer Certificate of Availability. You must receive your certificate prior to submitting this application. Please allow 2 weeks for this review. If your provider is Alderwood, Northshore or Woodinville, please contact them for information regarding receiving certification for water and/or sewer availability and provide this with your application

☐ Letter from water purveyor indicting available fire flow meets Fire Department requirements (Water and Sewer Certificate of Availability, see above listed procedure)

☐ An application for a concurrency encumbrance letter (BMC 17.03.014) unless the permit is specifically exempted by BMC 17.03.003. (Ord. 1691 § 1, 1997; Ord. 1628 § 1, 1996). If a concurrency encumbrance letter has been issued, submit the letter in lieu of concurrency application
PORTABLE STRUCTURES

Additional submittal requirements:

Site plan (7 copies):

<table>
<thead>

</tr>
</tbody>
</table>

Title sheet with Vicinity Map and a title block indicating name, address, phone number of applicant and owner, and property address (contact Development Services for address verification or for an application for new addresses prior to intake appointment).

Seven (7) Overall Site Plans (minimum 8 1/2 x 11” size paper at a scale of 20’ equals 1”) showing the proposed structure in plan view indicating:

- North arrow
- Bar scale
- Existing and proposed public and private streets surrounding and within the property
- Existing and proposed contours (2 foot increments where <15% slope, 5 foot increments where the slope is 15% or greater)
- When present, environmentally sensitive areas on site, adjacent to, or within 200 feet of property (such as wetlands, steep slopes, top and toe of slope, rivers, streams, ponds, ditches, etc.);
- Property lines
- Site acreage
- All present improvements on property
- Distances from the proposed buildings to property lines and other buildings on the site
- Legal description and assessor’s parcel number
- Location of existing and/or proposed easements
- Driveway information for existing and proposed driveway, including: location and width of the existing driveway and/or depressed curb, elevation of curb at center line of proposed driveway;
- Internal roadway radii
- Elevation of finish floor
- Existing sewer, water, storm drains, and other utilities
- If proposing connection, location and method of proposed sewer connection, water meter, roof drain connection to the existing storm drain, and the location of the foundation drain with point of disposal indicated;
- Location of existing or planned fire hydrants and planned water mains, if new mains are to be installed.

Building Plans:

- Building Elevations
- Floor Plan of each floor and basement indicating:
- Square footage of total building - indicate room usage (office, conference, lab, etc.);
- Gross floor area for each building (if multiple buildings);
- If school site, aggregate total building area of permanent buildings
- If school site, aggregate total square footage of existing and proposed portables

#### Plumbing and Mechanical:

- ❑ Note: Plumbing and mechanical permits will not be issued prior to issuance of the building permit.
- ❑ If plumbing and mechanical drawings are shown in detail on the submitted building plans and a plumbing and/or mechanical application is included the plumbing and mechanical review will be performed concurrently with the building review. Separate permits for plumbing and mechanical will be issued at the time of building permit issuance.
- ❑ If plumbing and mechanical drawings are not shown in detail, only the building portion will be reviewed. Separate plumbing and mechanical permit applications and complete plans are required. These applications will not be reviewed concurrently with the building permit application, and are subject to the standard plan review time.

#### Landscape Plans:

For all new construction and additions that increase existing gross floor area by more than 20%, provide detailed landscape plans that include the following:

- ❑ Landscape Plan and Irrigation Plan drawn to scale with stamp from Landscape Architect or Certified Nurseryman and a schedule drawn to the same scale as the storm water/detention plan, showing symbols, numbers, sizes and types of plants.
- ❑ Tree Retention Plan consistent with BMC 12.18.030 (may be included on Landscape Plan above)
- ❑ Existing Parking Stalls
- ❑ Proposed Parking Stalls (if required)
- ❑ Disabled person/accessible parking stalls
- ❑ Existing landscape areas, plants, location and sizes

### Two of the following items (file, bld):
- Structural Calculations for support and tie down system

### Three sets of the following items (file, eng, bld):
- Technical Information Report (TIR)—A comprehensive drainage report containing all technical information and analysis necessary to develop the drainage plans. The TIR must conform to Section 2.3.1 of the King County Surface Water Design Manual (KCSWDM).
- Soils Report from a Licensed Geo-technical Engineer which specifies type of tie down to be used in site soils

### One of each of the following items:
- Is shared off street parking being proposed? If so, provide one (1) written contract with cooperating landowners showing the provision of adequate off-street parking.
- METRO form if in King County
- Grading and/or ROW permit applications, checklists and all required items
- The name, address, and phone number of the office of the lender administering the interim construction financing, if any; or the name and address of the firm that has issued a payment bond, if any, on behalf of the prime contractor for the protection of the owner, if the bond is for an amount not less than fifty percent of the total amount of the construction project. (RCW 19.27.095, State Building Code)
PORTABLE STRUCTURES

Other:

Applicant

☐ Five (5) copies of completed SEPA environmental checklist, including one original (if subject to SEPA review) and City’s required documents (see SEPA intake checklist for requirements) (file, 2-pln, 2-eng)

☐ Five (5) copies of Soils Report from a licensed Geo-Technical Engineer if geological hazard areas or steep slopes are present on area to be altered (file, 2-pln, 2-eng)

☐ Six (6) complete sets of the approved Land Use Decision (CAAP, SHR, RUP, CUP, etc.), and/or SEPA Determination and all items required by those decisions (if applicable) **NOTE** Copies of the Land Use Decision are only required to be submitted with the initial construction permit application for the project

☐ If this is not the initial construction permit application for this project, by checking this box I am confirming that I have read the land use decision(s) issued for this project and have provided the requisite number of copies with the initial application.

☐ Six (6) sets of notes and determinations from the pre-application conference (if applicable)

☐ Two (2) Phase I Environmental Reports if determined applicable at pre-application conference (file, pln)

☐ Other items may be required to be submitted for an application in order to ensure that the application is consistent with the Bothell Municipal Code.

Commercial Project:

Type of construction  ☐ I  ☐ II  ☐ III  ☐ IV  ☐ V  ☐ A  ☐ B  ☐ HT  Occupancy ______

Building Information is provided to assist in planning your project.

Fire review

All structures must conform to fire detection/sprinkler requirements prior to final inspections and occupancy per Chapter 15.10 BMC. All fire protection systems shall be submitted to the Fire Department.

Food & Beverage Handlers

County health departments will require review of all food establishments.

Plan review expiration

One year from the date of application. The Building Official may extend the time limitation for an additional 180 days upon written request by the applicant prior to the one year expiration. BMC20.02.120

Permit issuance

All permits are issued contingent upon the Fire Department review comments which must remain attached to the approved plans.

Permit expiration

Two years from the date of permit issuance. BMC20.02.130

Building inspections

All permitted structures require an inspection. It is the contractor’s responsibility to call for all inspections required. Required inspections are listed on the building permit. All permits, plans and correction notices are to be on the job site at all times. Any re-inspection fees due are required to be paid at the permit counter in the City Hall Building, 18415 101st Ave NE, prior to scheduling any further inspections.

Fire inspections

Approval to cover shall not be authorized until plans have been reviewed and approved and installation of the system is inspected and approved by the Bothell Fire Department, (425) 806-6242.

Final occupancy

All conditions of the project must be complete prior to issuance of Final Certificate of Occupancy.

Questions

Permit Technicians can assist you with questions regarding submittal requirements or the plan review process, (425) 806-6400.

Pre-application meetings are mandatory for Type II and higher applications. Additionally, the City will conduct pre-application meetings for projects below the mandatory threshold if requested by the applicant. The fee for a non-mandatory pre-application meeting will be determined based on the staff time to prepare and attend the pre-application meeting.
