Are you categorically exempt from a Traffic Concurrence review? Yes No

If YES, sign this form without completing the remainder of the form. If NO, continue completing this form. See Information Sheet for exemptions. Applicant may be required to provide proof of exemption.

OFFICE USE ONLY

PLAN NUMBER: _____ PRJ# _____

Property Information:

Site address _____ Assessors parcel number(s) _____

Plat name/lot # _____ Size of property _____

Legal description (attach separate sheet if necessary) _____

Comprehensive Plan sub-area _____

Is this an update to an active concurrency application? Yes No

Has property previously been reviewed for concurrency? Yes No

If yes, date of original application _____

Is this application made in conjunction with a land-use permit or construction permit application? Yes No

If yes, type of permit _____ Permit number _____

Existing use of property (attach separate sheet if necessary) _____

Existing number of PM peak hour trips _____ Proposed use(s) _____

Number of new PM peak hour trips _____

Phasing Information: will project be phased? yes no

Phase	Use	Size	PM Trips	Date

Reservation Capacity:

Will applicant seek to obtain a building permit during the encumbrance period? Yes No

Will applicant seek to reserve capacity during the encumbrance period? Yes No

Proposed length of reservation: **180 days**

Traffic Concurrency Submittal: You will need an appointment for this submittal, please contact a Permit Technician to schedule your appointment. The following items are required for all applications. Should any of the following minimum items not be provided, the application will not be accepted at the counter.

- Completed & signed Concurrency Application (page 1)
- Development Review Billing Form D
- Written consent of the property owner(s), if different from the applicant
- Legal Description of property
- Hearing Examiner's decision, SEPA determination, Concomitant Agreement, or any other previous land use determinations which apply to the subject property. (Does not apply to all applications.)
- Transportation Impact Analysis Checklist (attached, completed and stamped)

- Traffic Study
- Site Plan with Vicinity Map
- Completed Safe Walk form (applicable for residential short plats and subdivisions only).
- Completed Snohomish County Traffic Mitigation Offer & Traffic Worksheet
- Concurrency Surcharge Fees - 2021 rates - **add 5% technology fee** to total
 - Base fee: **\$2,301.00**, plus:
 - Project generates 3-19 peak hour trips: **\$1,022.00**
 - Project generates 20-50 peak hour trips: **\$2,037.00**
 - Project generates more than 50 peak hour trips: **\$3,393.00**

Applicant: This checklist is to be completed by a licensed engineer familiar with the traffic analysis submittal. Check each box under the *Applicant* heading on this checklist to confirm items are included in your submittal. A Permit Technician will check off each box under *Staff* when the item is confirmed to be included in the submittal package. *If you think an item is not applicable to your project, you must contact the City Traffic Engineer prior to your intake appointment to have the item(s) initialed as not required.*

Three (3) copies of all pertinent traffic related information for the submittal, including a minimum of one unbound copy of traffic study, are required.

Applicant	Staff
Project Description	
<input type="checkbox"/> Project type and size	<input type="checkbox"/>
<input type="checkbox"/> Project location, with vicinity map	<input type="checkbox"/>
<input type="checkbox"/> Proposed site access, with site plan (reduced size, ok)	<input type="checkbox"/>
<input type="checkbox"/> Horizon planning year.....	<input type="checkbox"/>
Existing Conditions	
<input type="checkbox"/> Existing traffic volumes, daily and peak hour turning movement	<input type="checkbox"/>
<input type="checkbox"/> All counts completed within <u>one year</u> prior to the application date	<input type="checkbox"/>
<input type="checkbox"/> Roadway network, including traffic control.....	<input type="checkbox"/>
<input type="checkbox"/> Level of service calculations at impacted corridors and site entrances	<input type="checkbox"/>
<input type="checkbox"/> Parking supply.....	<input type="checkbox"/>
Accident/Safety Conditions	
<input type="checkbox"/> Sight distance analysis at intersections and access points	<input type="checkbox"/>
<input type="checkbox"/> Clear zone analysis	<input type="checkbox"/>
Trip Generation and Distribution	
<input type="checkbox"/> Trip generation using the latest ITE Generation Manual or other approval method.....	<input type="checkbox"/>
<input type="checkbox"/> Trip distribution map showing turning movements assigned to roadway network	<input type="checkbox"/>
<input type="checkbox"/> Parking generation analysis using the latest ITE Parking Generation Manual or other	<input type="checkbox"/>

Public Transit and Non-Motorized Facilities

- Identification of existing transit service
- Identification of existing trails, bicycle lanes, and other non-motorized facilities.....

Future Conditions

- Annual growth rate determined by actual data or other approved source.....
- Future conditions, with and without the project, with commentary on compliance with concurrency requirements as needed.
- Level of Service calculations sheets at all impacted corridors and site access points, with and without the proposed project.
- Parking demand analysis
- Effect of proposed development on public transit and non-motorized facilities.....
- Any transportation facilities proposed by the Comprehensive Plan which may effect the development or study area.

Mitigation Measures

- All developments are subject to the City’s Traffic Mitigation Ordinance and mitigation payments are calculated accordingly.
- Proposed mitigation to correct any deficiencies not addressed through the Traffic Mitigation Ordinance, consistent with provisions in the Bothell Municipal Code, in particular but not limited to, Title 14 (Environment), Title 15 (Subdivision), Title 17 (Transportation) and Title 21(Development Impacts).
- Dedication of right-of-way and associated frontage improvements
- Evaluation of change in accident potential with proposals to correct safety deficiencies ..
- Offer of traffic impact fees to Snohomish County per the Interlocal Agreement.

Other

- Analysis of internal site circulation for vehicles, transit, handicap access and other evaluations determined at project scoping.
- Safe Walk Route Assessment–applicable to residential short plat and subdivisions only .

More detailed requirements for the preparation of the study provided by Transportation Impact Analysis, form V.

To the best of my knowledge, the enclosed traffic study includes the before mentioned items. I understand that failure to include all areas of discussion as described herein, will result in an application being determined inconsistent with Bothell Code and may result in delays of the subject application.
