Small Apartment Complex - Typical

Typical Problems:
1. No pedestrian entrance into the apartments.
2. No connections to neighboring activities.
3. Parking is the dominant feature.
4. No buffer zone for pedestrians between front doors and parking.

Transit-Compatible - Small Apartment Complex

Transit-Compatible Objectives:
1. Attractive entrance from the sidewalk and adjacent bus stop.
2. Walkways provide clear circulation throughout the development and connections to neighboring developments.
3. Bus stop is easily accessible.
4. Pedestrian courtyard with connections to neighboring developments.
